

Transportation Management and Logistics Program

Let PIA show you how you can save 10-15% on your shipping bills

The PIA Transportation Management and Logistics Program will save your company valuable resources and provide technical support to your transportation and logistics program. Together with our Vendor Partner, TranzAct Technologies, we have tailored a program that can help members find significant savings on their shipping expenses while maintaining the highest standards of delivery requirements.

TranzAct services provided under the PIA program include:

- No cost, fact based needs assessment and benchmarking study of your current shipping protocols.
- Opportunity to reduce your supply chain costs.
- Dependable carrier network. You control carrier selection, communication and day to day operations.
- Competitive LTL and TL pricing that lasts!
- Industry leading technology creates improved business decisions.
- Timely and accurate freight audit and analysis.
- Logistics insight and customer support.

LET TRANZACT BENCHMARK YOUR RATES FOR FREE! Craig Bowen, Director, Global Sales for TranzAct Technologies, is a 30 year veteran of the transportation/logistics industry. Contact Craig or complete and return the form below to find out how the PIA Transportation Management and Logistics Program can save you money.
