

Printing Industries Alliance OSHA Compliance Webinars – “On Demand” and No Cost to Members

OSHA is out there inspecting printing operations. If your compliance training isn't up to date, the citations are serious and expensive! A bad safety record will increase worker's compensation cost, lead to bad morale, and impact productivity and potentially lost customers. And it's not easy finding a replacement for a hurt employee.

Taking care of the required OSHA compliance training is challenging for most companies. Training topics are complex and hiring outside trainers is expensive. Also, production demands make it difficult to find the time to get the training done.

That's where Printing Industries Alliance can help!

The Printing Industries Alliance OSHA Compliance Webinars are available “On Demand” – 24/7, 365 days a year. All of the webinars are available at no cost to PIA members.

- Have a new employee who needs Hazard Communication training before they start? We have a webinar for that.
- Have a forklift operator who had a near miss and needs retraining? We have that too!
- Need Emergency Evacuation Plan training for a third shift crew? Have that (and more!)

All PIA OSHA Compliance webinars contain basic compliance instruction for each standard, background materials and instruction on tailoring the training to your particular facility. Also, five of the webinars are available in both English and Spanish versions.

To get started, all you need is a computer and speakers.

See the complete list of training topics and instructions on accessing the webinars to the right.

PIA Recorded Safety Training Webinars

- Lockout/Tagout (*English and Spanish versions*)

How to Access the Printing Industries Alliance OSHA Compliance Webinars

- Click on the yellow “Member Sign In” button at www.PIAlliance.org.
- Members can login with their email address and the password print123.
- Click “Access Webinars” in the Safety Webinar box.
- Choose the webinar you wish to view.
- The webinar registration page includes any pertinent documentation and handouts needed for each webinar.
- All webinars include basic training components necessary to be in compliance. In most instances, companies will need to add training information about hazards and policies specific to your operation. PIA provides guidance on company-specific elements where necessary.
