## Special Offer for PIA Members -- Customized On Demand Packaging® Solutions

All major freight carriers base shipping costs on weight and container dimensions. This means empty space in your boxes costs you money or makes you less competitive in the marketplace. In addition, by relying on a supplier to send you a custom order - when you need to have your printed materials out the door - puts you at their mercy.

A Packsize On Demand Packaging® solution puts you in charge. We can help you spend and waste less through the ability to create a perfectly sized box for every product, every time.

### Packsize now provides custom on-site box-making solutions that save Printing Industries Alliance members money by:

- Reducing your box management costs and eliminating obsolete inventory created by minimum order quantities.
- Creating fit-to-size boxes that eliminate the need for fillers, and extra time and labor.
- Using less corrugated material and thereby demonstrating your focus on environmental sustainability by reducing your carbon footprint.
- In addition, Packsize will provide special benefits for PIA members:
  - Packsize will install, at your facility, the advanced box-making equipment needed to make custom boxes **at no cost** (minimum quantities apply).  
**An \$11,000 value!**
  - Packsize will provide an annual rebate on all purchases, once the volume from all PIA member companies exceeds a threshold volume.

This program can save Printing Industries Alliance members money on corrugated costs, valuable warehouse space in storing obsolete or seldom-used box inventories and streamlines manufacturing throughput by not having to wait for custom-sized boxes to be delivered from an outside vendor. As a committed partner to PIA, Packsize is pleased to extend this special savings program to help members realize greater packaging success and profitability.

Visit [packsize.com](http://packsize.com) for more details. To schedule a demo, contact Tim Freeman, President, Printing Industries Alliance at (716) 691-3211 or [tfreeman@PIAAlliance.org](mailto:tfreeman@PIAAlliance.org).
